The Money Market Fund is not a guaranteed investment. Investing in Money Market Funds differs from investing in deposits, the principal invested in an MMF is capable of fluctuation and may involve losses. Such losses would only be borne by investors. The Money Market Fund does not rely on external support for guaranteeing the liquidity of the fund or stabilising the net asset value. The Fund may invest up to 100% of its assets in instruments issued or guaranteed by a public debt issuer such as Member States, administrations, institutions and/or organization from the euro zone.

Capital is not guaranteed. It is important to remember that the value of investments and any income from them can go down as well as up and is not guaranteed.

The performance figures relate to the past performance which should not be seen as an indication of future returns. The capital invested in the fund can increase or decrease and is not guaranteed. Future returns will depend, inter alia, on market conditions, fund manager's skill, fund risk level and fees.
